## Our Company

The company has established strong backward integration for agricultural produce and source fine quality agri produce from most fertile producing regions of India through our own farms, Orchards, farmers and traders.

Our processing plants are equipped with latest technology to preserve freshness and enhance shelf life of the product. Our processing plants are located within 100-150 Km radius from the crop growing clusters which ensures reduction of overall processing time, cost and environmental impacts.

Our Company has accredited certifications such as FSSAI & APEDA and our processing plants are qualified with international certifications viz ISO 22000, ISO 9000, HACCP, BRC, HALAL, KOSHER, FDA, etc. to meet international food safety standards which makes us reliable producers and exporters globally.

Above all, our team is an important asset to our organisation; creating difference for the business. Cropotto Foods is headed by a team of highly motivated and enthusiastic people with more than a decade of industry experience.

**"We are here to serve"** the nature's best by selecting the finest crop, processed in the state of the art facilities to meet all the customized needs for agro products across the globe.
